MDB TE Series.

The MDB TE Series grass and weed cutting flails are specifically designed and tuned to the Green Climber line of products.

BUILT FOR TOUGH JOBS.

The **TE 130** (Trincia Erba) comes with standard 48 cutting knives, which makes it ideal for grass and weeds. Alternatively the 24 hammer option makes it an excellent tool for especially fibrous materials.

The **TE 130 Plus** has a more powerful hydraulic motor built in for extra power for those especially difficult tasks.

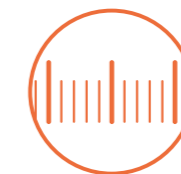

FAST & EFFICIENT.

Lightweight attachment allows for fast and efficient operation across a wide range of materials..

POWERFUL.

The combination of hydraulic pumps and rotating knives or hammers provide cutting power for grass and fibrous plants up to 7 cm / 2.5 in.

PRECISION CUTTING.

Cutting knives and hammers are built from robust materials providing durability with precision cutting.

ROBUST DESIGN.

The integrated motors allow for a sleek, compact and robust design without protruding elements. The internal motors are protected from damage by any falling materials.

SAFETY.

The front and rear facing rubber pads block flying objects and material from exiting the machine for optimal operator safety.

TECHNICAL SPECIFICATIONS

Dry Weight	370 kg
Hydraulic Motor Upgrade	32 cc
Transmission	Hydrostatic Proportional with 3 Belts
Cutting Option Knives	48 Knives
Cutting Option Hammers	24 Hammers
Safety Front Rubber Pads	Yes
Safety Rear Rubber Pads	Yes
Ground Skids	Yes
Floating Plate Compatibility	Yes
